Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

FINAL DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. **Claims 1-2, 19-20, 23-24 and 34-35** are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. With regards to the claims the examiner could not find any support within the specification of 09/823,448 and co-pending application US 6,224,216 in which "the light having the first wavelength and the light having the second wavelength can be blended, in at least in part, by adjusting durations of the first emission time period and the second emission time period" and "the light having the first wavelength and/or the light having the second wavelength and the light having the third wavelength can be blended, at least in part, by adjusting the durations of the first emission time period, the second emission time period and the third emission time period."

Claims 3-9, 25-33, and 36-48 are rejected as being dependent on a rejected base claim.

Response to Arguments

3. Applicant's arguments filed June 3, 2005 have been fully considered but they are not persuasive.

Applicant's arguments with regarding to the 112 rejection are not persuasive because no support can be found in the present application or the co-pending application 09/823,448 (US 6,224,216). The specifications of the present application and the co-pending application appear to disclose adjusting the percentage of each R, G, B colors/light to obtain a desired weighted intensity (a white balance) by adjusting durations of the first, second and third emission time period. This is different from the claimed limitation as mentioned in the above rejection, which is adjusting the durations of the first, second, (third) emission time periods in order to blend the first, second, (third) light.

Conclusion

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
